

**LOOK BETTER,
FEEL BETTER. INSIDE AND OUT.**

Excess sugar wrecks havoc on your body.

Sugar is found in nearly everything we eat. In the U.S. alone, there has been a 20% increase in sugar consumption since 2003. This surge, along with a lack of exercise, has led to a worldwide epidemic of obesity and a myriad of associated conditions.

When we consume too much sugar, our bodies store the excess in our liver and muscles where it is converted into fat. Obesity may lead to low energy levels, hormone imbalances, decreased cognitive function, and heart related concerns. In short, excess sugar wrecks havoc on our bodies and decreases our quality of life.

BENEFITS OF SRQ:

- Targets Sugars & Bad Carbs
- Increased Energy Production
- Age Reversing Effects
- Cellular Detoxification
- Healthy Inflammatory Response
- Antioxidant
- Lower Blood Sugar
- Healthy Cognition
- Healthier Cholesterol Levels
- Hepatoprotective
- Immune System Modulation
- Nrf2 Modulator

HEALTHY BLOOD SUGAR HELPS WITH THE FOLLOWING:

- Hydration
- Clear vision
- Curbing hunger and feeling full
- Healthy circulation and nerve function (feet and hands)
- Healthy skin
- Increased recovery

SUPERCHARGE THE POWERHOUSE OF THE CELL—THE MITOCHONDRIA.

The ingredients in SRQ activate the mitochondria and help it efficiently burn more simple sugars to help you produce more energy and prevent the sugar from being converted to fat.

THE ONLY PRODUCT IN THE WORLD THAT TARGETS BAD SUGARS.

SRQ was developed by the Japanese Institute of Applied Biochemistry to fight the effects of sugar at the cellular level. SRQ reduces sugar's harmful effects by binding with simple carbs before they enter the bloodstream and stopping the absorption of sugar. This reduces the body's fat storage and allows each cell to work more efficiently, improving the health of nearly every system in the body.

With SRQ your body will not only look and feel great on the outside but also function healthier on the inside.

COMPLEX CARBS GOOD

Complex carbohydrates like the ones found in whole grains, fruits and vegetables, and beans are an important part of the diet and provide many essential nutrients. They're a rich source of fiber, which takes longer to digest and helps you feel fuller longer. They also help manage blood sugar spikes, making them a healthy option for weight and blood sugar control.

Whole Grains

Bran Cereals

Green Veggies

Fresh Fruit

SIMPLE SUGARS BAD

Simple carbohydrates contain refined sugars which are directly linked to obesity. These "bad" carbs are most often found in baked goods like cakes and cookies, breakfast cereals, soda, and artificial syrups and flavors.

Candy & Desserts

Sugared Cereal

Sugary Drinks

Refined Breads

WEIGHT LOSS. ENERGY. COGNITION. ANTI-AGING.

“

SRQ is easy to love. From day one I had more energy and felt better. I take it before meals and dessert and love that my body is working against bad carbs and sugars. I have actually lost several pounds and love knowing that my inner health is being supported.

Kathryn—Wife, Mother

“

I haven't changed much of anything in my life except taking SRQ every day. I've lost 12 pounds over the past 3 months, which for me is amazing. I feel great and have more confidence.

Doug—Husband, Father, Entrepreneur
